Subject: the last thing seattle needs is Project 3018093
Date: Thursday, October 31, 2019 9:48:48 AM

CAUTION: External Email

Dear Seattle officials and employees,

It's time to live up to our ideal as the "emerald city" and protect the natural resources that provide mental and physical health benefits for our citizens, and every living creature within the city limits, as well as fortify our city against the problems climate change will certainly bring to our region. It is your responsibility to protect mature trees as Seattle rapidly develops. I ask you to enforce and encourage common sense tree protection, and stop large clear-cuts when sustainable development can happen with a little more forethought and care.

Thank you for allowing public comment on Project 3018093 at 9666 51st Ave S. With at least 50 requests to PRC@seattle.gov, please hold a public meeting to review the environmental and land use issues of the proposed clear-cutting of a large wooded lot bordering Kubota Gardens.

Sincerely,

Lianne Lindeke

Seattle resident since 1984
